KOMITMEN KEANEKARAGAMAN HAYATI PUPUK KALTIM

Pupuk Kaltim berkomitmen menjaga harmoni antara kegiatan industri dan kelestarian alam. Sebagai bagian dari komitmen terhadap pembangunan berkelanjutan dan pelestarian lingkungan, PT Pupuk Kalimantan Timur (Pupuk Kaltim) menegaskan bahwa perlindungan dan pemulihan keanekaragaman hayati merupakan elemen penting dalam tanggung jawab perusahaan terhadap lingkungan dan masyarakat.

Pupuk Kaltim memahami bahwa kegiatan industri, khususnya di sektor pupuk dan kimia, memiliki potensi dampak terhadap ekosistem di sekitar wilayah operasi. Pupuk Kaltim berkomitmen untuk mengelola seluruh aktivitasnya serta berkontribusi terhadap upaya nasional dan global dalam pelestarian alam.

Komitmen Kami:

1. **Integrasi Prinsip Keanekaragaman Hayati dalam Operasional Perusahaan**
   Menjalankan setiap kegiatan usaha yang berwawasan lingkungan dan meminimalkan dampak negatif operasional terhadap keanekaragaman hayati.
2. **Penetapan Area Konservasi**
   Menetapkan suatu area sebagai kawasan perlindungan dan menyediakan sumber daya yang memadai untuk mendukung perlindungan keanekaragaman hayati dengan prinsip no net loss of biodiversity pada kawasan prioritas.
3. **Perlindungan Ekosistem dan Habitat Alami**
   Melaksanakan kegiatan pemantauan dan perlindungan terhadap flora dan fauna di sekitar wilayah operasi, termasuk melalui program konservasi dan rehabilitasi lahan di area buffer zone dan kawasan penyangga industri.
4. **Kolaborasi dan Kemitraan untuk Konservasi Alam**
   Bekerja sama dengan pemerintah, lembaga konservasi, akademisi, dan masyarakat lokal dalam upaya perlindungan keanekaragaman hayati, restorasi ekosistem pesisir, dan pengembangan kawasan hijau berkelanjutan di Bontang dan sekitarnya dalam rangka mencapai *Net Positive Impact*
5. **Pemulihan dan Rehabilitasi Lingkungan**
   Melaksanakan program revegetasi dan penghijauan di area non-produktif serta mendukung konservasi mangrove, reklamasi lahan, konservasi terumbu karang dan peningkatan keanekaragaman spesies lokal sebagai bagian dari tanggung jawab ekologis perusahaan.
6. **Pemantauan dan Pelaporan Keanekaragaman Hayati Secara Transparan**
   Pupuk Kaltim berkomitmen untuk melakukan pemantauan rutin terhadap indikato keanekaragaman hayati dan melaporkannya dalam Sustainability Report sesuai dengan standar yang berlaku.
7. **Pencegahan Deforestasi**
   Perusahaan berkomitmen untuk meminimalisir tindakan deforestasi sesuai dengan peraturan perundang-undangan yang berlaku di Indonesia.
8. **Manajemen Risiko Keanekaragaman Hayati**
   Perusahaan melaksanakan asesmen risiko keanekaragaman hayati dan mengimplementasikan hirarki mitigasi untuk mengelola dan mengurangi risiko terhadap keanekaragaman hayati yang dapat timbul kegiatan perusahaan

PUPUK KALTIM'S COMMITMENT TO BIODIVERSITY

Pupuk Kaltim is committed to maintaining harmony between industrial activities and nature conservation. As part of its commitment to sustainable development and environmental conservation, PT Pupuk Kalimantan Timur (Pupuk Kaltim) emphasises that the protection and restoration of biodiversity is an important element of the company's responsibility towards the environment and society.

Pupuk Kaltim understands that industrial activities, particularly in the fertiliser and chemical sectors, have the potential to impact ecosystems in the vicinity of its operations. Therefore, Pupuk Kaltim is committed to managing all its activities based on the principle of no net loss of biodiversity, as well as contributing to national and global efforts in nature conservation.

Our Commitment:

1. ***Integration of Biodiversity Principles into Company Operations***
   Ensuring that all business activities in environment friendly and minimizes the negative impact of operations on biodiversity.
2. ***Establishment of Conservation Areas***
   Establishing an area as a protected area and providing resources to support biodiversity conservation based on the principle of no net loss of biodiversity in priority areas.

3. ***Ecosystem and Natural Habitat Protection***
   Monitoring and protection activities for flora and fauna around the operational area, including through land conservation and rehabilitation programs in industrial buffer zones.

4. ***Collaboration and Partnerships for Nature Conservation***
   Collaborating with the government, conservation agencies, academics, and local communities in efforts to protect biodiversity, restore coastal ecosystems, and develop sustainable green areas in Bontang and its surroundings to achieve Net Positive Impact

5. ***Environmental Restoration and Rehabilitation***
   Implementing revegetation and greening programmes in non-productive areas and supporting mangrove conservation, land reclamation, coral reef conservation, and increasing local species diversity as part of the company's ecological responsibility.
6. ***Transparent Biodiversity Monitoring and Reporting***
   Pupuk Kaltim is committed to conducting regular monitoring of biodiversity indicators and reporting them in the Sustainability Report in accordance with applicable standards.

7. ***Prevention of Deforestation***
   Pupuk Kaltim is commited to minimizing deforestation in accordance with applicable laws and regulations in Indonesia
8. ***Biodiversity Risk Management***
   Pupuk Kaltim conducts biodiversity risk assessments and implements mitigation hierarchy to manage and reduce risks to biodiversity that may arise from company activities.
